73003

Cruise: New England coastal zone bottom gravity
R/V ASTERIAS

Chief scientist: Wallace Bothner - University of New Hampshire

Scientific crew: John Hendricks - USGS
Charles O'Hara - USGS

Dates: June 8 - 18, 1973

Type of work: Bottom gravity survey

Remarks: Because of weather, work was done in Cape Cod Bay resulting in a survey of the bay with 50-60 bottom gravity stations.
