POST CRUISE REPORT

Date Prepared: May 7, 1986

VESSEL: R/V LAIDLEY

CLIENT: Army Corps of Engineers, Vicksburg, MISS C.E.R.C.

CHIEF SCIENTIST: Fred Anders, Army Corp  
Dan Phelps, Army Corp  
Dave McGee, Army Corp  
Dave Nichols, USGS  
John Erickson, NOAA

CRUISE LENGTH: April 14 - April 22, 1986

LOCATION: Ocean City MD to Ocean City MD.

AREA: Ocean city inlet to 5 miles offshore

PURPOSE: Sand borrow sites

EQUIPMENT: Klein side scan sonar, ORE geopulse, ORE 3.5 kHz side mount, Loran C megapulse/IBM PC navigation

SUMMARY: Track lines were run over near shore sand beds to determine volume for beach replenishment. Approximately one third of the survey was completed before bad weather conditions concluded the job. Another survey will be planned for June, 1986 completing the project so that coring can begin shortly thereafter.
