Oceans and Coasts
[previous](#) | [folder](#) | [next](#)

This poster provides an overview of the Ocean and Coastal Mapping Inventory being developed by the Interagency Work Group on Ocean and Coastal Mapping (IWG-OCM). The key theme of the effort is "**MAP ONCE, USE MANY TIMES**". Please feel free to download and distribute this poster or use it for your presentations.

You can download any of the files below by dragging them to your Windows desktop. To open a file for reading, double-click it.
